REGISTER by May 5
1 credit / CRN 39074 / CIOS F258, N01 
Cost: $135 (or $98 if paid in advance)

In this class you will be engaging both your right brain and your left brain as you learn to improve your photographic image composition and image editing skills. Students will learn to create eye-catching image compositions, capturing images with Lightroom and Photoshop in mind, accurately and efficiently evaluating the color characteristics of your images, utilizing nondestructive image adjustments and editing techniques, accurately and efficiently adjusting the color balance of your images, preparing your image for your final output device(s) and exporting and/or printing your final image, utilizing the best format for its final use.

Basic skills with a digital camera are required as is basic computer literacy is required. The university has a few digital cameras to loan, having your own digital camera and telephoto lens will help you get more out of the class.

Taz Tally is a professional photographer and graphic artist with an extensive resume of photography as well as the teaching of digital imaging.
